STATE OF MINNESOTA

Minnesota Pollution Control Agency

INDUSTRIAL DIVISION

PUBLIC NOTICE OF INTENT TO REISSUE

NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM (NPDES)/  
STATE DISPOSAL SYSTEM (SDS) PERMIT MN0045489

Public Comment Period Begins: June 7, 2013  
Public Comment Period Ends: July 8, 2013  
  
Current Permit Issued: November 1, 2005  
Current Permit Expiration Date: October 31, 2010

**Name and Address of Permittee:**

Saint Louis Park city of  
5005 Minnetonka Boulevard  
St. Louis Park, Minnesota 55416

**Facility Name and Location:**

Former Reilly Tar Site  
Groundwater Remediation Site  
7020 Lake Street West  
St. Louis Park, Hennepin County, Minnesota

**Receiving Waters:** SD 001: Wetland (Class 2D,3D,4C,5,6 water);  
SD 002: Minnehaha Creek (Class 2B,3C,4A,4B,5,6 water)

**Description of Permitted Facility**

The city of St. Louis Park operates and discharges from a groundwater treatment system located at 7020 West Lake St., St. Louis Park, Hennepin County, Minnesota. Additionally, there is a city well labeled as SLP 6, located along Zarthan Avenue South, functioning as a barrier well which would be placed into operation if necessary to protect the municipal water supply.

Groundwater in the area had been contaminated as a result of various manufacturing processes and material handling operations which included coal-tar distillation and creosote timber treatment. The treatment system consists of a pump and two 7.5 Calgon 7.5 granular activated carbon vessels operated in series with an average daily discharge volume of 174,000 gallons per day. This station, identified as SED 001, discharges to the municipal storm sewer which discharges into an unnamed wetland locally known as South Oak Pond.

The second authorized discharge is the barrier well which has a pumping capability of six hundred gallons per minute [864,000 gallons per day]. This station would only be activated if necessary to prevent the migration of contaminants to the groundwater supplying municipal needs.

Effluent limitations were established based upon the pollutant removal capability of a tertiary treatment system and are sufficient to protect surface waters with a fishable/swimmable designated beneficial use. Effluent limitations were based on the wasteload allocations provided for in the draft Minnehaha Creek-Lake Hiawatha Total Maximum Daily Load report.

#### **Preliminary Determination on the Draft Permit**

The Minnesota Pollution Control Agency (MPCA) Commissioner has made a preliminary determination to reissue this NPDES/SDS permit for a term of approximately five years.

A draft permit is available for review at the MPCA office at the St. Paul address listed below and on-line at <http://www.pca.state.mn.us/news/data/index.cfm?PN=1>.

A copy of the draft permit will be mailed to you if the MPCA receives your written or oral request at this office. If you have questions about this draft permit or the Commissioner's preliminary determination, please contact Deborah Idzorek at 651-757-2704.

#### **Written Comments**

You may submit written comments on the conditions of the draft permit or on the Commissioner's preliminary determination.

Written comments must include the following:

1. A statement of your interest in the permit application or the draft permit.
2. A statement of the action you wish the MPCA to take, including specific references to sections of the draft permit that you believe should be changed.
3. The reasons supporting your position, stated with sufficient specificity as to allow the Commissioner to investigate the merits of your position.

#### **Petition for Public Informational Meeting**

You also may request that the MPCA Commissioner hold a public informational meeting. A public informational meeting is an informal meeting that the MPCA may hold to solicit public comment and statements on matters before the MPCA, and to help clarify and resolve issues.

A petition requesting a public informational meeting must include the following information:

1. A statement identifying the matter of concern.
2. The information required under items 1 through 3 of "Written Comments," identified above.
3. A statement of the reasons the MPCA should hold a public informational meeting.
4. The issues that you would like the MPCA to address at the public informational meeting.

#### **Petition for Contested Case Hearing**

You also may submit a petition for a contested case hearing. A contested case hearing is a formal evidentiary hearing before an administrative law judge. In accordance with Minn. R. 7000.1900, the MPCA will grant a petition to hold a contested case hearing if it finds that: (1) there is a material issue of fact in dispute concerning the

application or draft permit; (2) the MPCA has the jurisdiction to make a determination on the disputed material issue of fact; and (3) there is a reasonable basis underlying the disputed material issue of fact or facts such that the holding of the contested case hearing would allow the introduction of information that would aid the MPCA in resolving the disputed facts in making a final decision on the draft permit. A material issue of fact means a fact question, as distinguished from a policy question, whose resolution could have a direct bearing on a final MPCA decision.

A petition for a contested case hearing must include the following information:

1. A statement of reasons or proposed findings supporting the MPCA decision to hold a contested case hearing according to the criteria in Minn. R. 7000.1900, as discussed above.
2. A statement of the issues proposed to be addressed by a contested case hearing and the specific relief requested or resolution of the matter.

In addition and to the extent known, a petition for a contested case hearing should also include the following information:

1. A proposed list of prospective witnesses to be called, including experts, with a brief description of proposed testimony or summary of evidence to be presented at a contested case hearing.
2. A proposed list of publications, references, or studies to be introduced and relied upon at a contested case hearing.
3. An estimate of time required for you to present the matter at a contested case hearing.

#### **MPCA Decision**

You may submit a petition to the Commissioner requesting that the MPCA Citizens' Board (Board) consider the permit issuance. To be considered timely, the petition must be received by the MPCA by 4:30 p.m. on the date the public comment period ends, identified on page 1 of this notice. Under the provisions of Minn. Stat. § 116.02, subd. 6(4), the decision whether to issue the permit and, if so, under what terms will be presented to the Board for decision if: (1) the Commissioner grants the petition requesting the matter be presented to the Board; (2) one or more Board members request to hear the matter before the time the Commissioner makes a final decision on the permit; or (3) a timely request for a contested case hearing is pending. You may participate in the activities of the Board as provided in Minn. R. 7000.0650.

The written comments, requests, and petitions submitted on or before the last day of the public comment period will be considered in the final decision on this permit. If the MPCA does not receive written comments, requests, or petitions during the public comment period, MPCA staff as authorized by the Board, will make the final decision on the draft permit.

Comments, petitions, and/or requests must be submitted in writing on or before the end date of the public comment period identified on page 1 of this notice to:
